

INFORMATION BULLETIN

RETIREE RETURN TO WORK PROGRAM

August 2021

Overview

To help alleviate the classroom teacher shortage problem in Illinois, a law that allows retired TRS members to teach for a full school year in districts declared to be subject shortage areas has been extended until June 30, 2024. Under the law, retired teachers who go back to these designated districts are not subject to “return-to-work” restrictions imposed on other retirees. The regional superintendent must designate the employment to be in a subject shortage area in order for a retiree to be able to return to work without limitation.

Eligibility

A retiree receiving an annuity may teach in a subject shortage area without compromising his/her retirement status if:

- The employment does not begin within the school year service was terminated.
- The retiree has not received the TRS early retirement incentive.
- The annuitant retired before age 60 and with less than 34 years of service and the eligible employment does not begin within the year following the effective date of the retirement annuity.
- The annuitant retired at age 60 or above or with 34 or more years of service and the eligible employment does not begin within the 90 days following the effective date of the retirement annuity.
- Before the eligible employment begins, the employer notifies TRS in writing of the annuitant’s desire to participate in the program.

Participation

If hired, the retiree shall continue to be a retirement annuitant, but shall be deemed an active teacher for other purposes, such as inclusion in a collective bargaining unit, eligibility for group health benefits, and compliance with the laws governing the employment, regulation, certification, treatment and conduct of teachers.

Health insurance coverage

The retiree will participate in the group health benefits offered by the school district without limitations based on pre-existing conditions. After the retiree stops teaching in a shortage area, the retiree should notify TRS and request a TRIP Participation Election form. The member will have to fill out the form and obtain a termination letter from the district’s insurance plan. The member must submit the TRIP Participation Election form along with the district’s insurance termination letter to TRS within 60 days of the employment termination.

If the school district does not offer health insurance, the retiree must notify TRS and request to remain in TRIP.

The retiree should remain on district insurance through summer breaks if he/she will be participating in the program the following year.

No recertification required

Once a retiree is approved into the program, the employer does not need to recertify each year, he/she will be approved to work through June 30, 2024.

(more)

No service credit

No employer or employee contributions can be made to TRS and no additional service credit can be earned when a retiree is hired to work in a subject shortage area. Employment will not affect the retiree's final average salary or the annuity amount.

Post-retirement limitations

The retiree who returns to work in a subject shortage area is not required to comply with the 120-days/600-hours post-retirement employment limitations. The retiree will receive a pension although he/she is employed by a school district beyond the post-retirement employment limitations.

Regional Office of Education and school district certification procedure

1. The Regional Office of Education fills out the TRS form certifying that the school district has

a shortage area and the district met the public act requirements.

2. After meeting the requirements of the public act, the Regional Office of Education forwards the completed form to TRS certifying a subject shortage area. If approved, TRS will forward a Return to Teaching in Subject Shortage Area Employee Notification form to the school district. The district completes this form to certify the intent to hire a retiree under the program providing the retiree's name, hire date, health insurance status and the subject shortage area which applies to the retiree.
3. We will notify the retiree and school district that we received the certification form and acknowledge the hiring of the retiree.
